SUBJECT INDEX, VOLUME 154

Abdomen
Diagnostic and surgical considerations in the treatment of thoracoabdominal and suprarenal aortic aneurysms, 233
Management of injuries to the suprarenal aorta, 613
Potentially curable masses in the pancreas, 134
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643

Abscess, splenic
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Acquired immune deficiency syndrome
Response to radiotherapy of head and neck tumors in AIDS patients, 443

Adenolymphoma
Warthin's tumor: multicentricity and increasing incidence in women, 347

Adenoma
Carcinoids associated with multiple endocrine neoplasia syndromes, 142
Ten years experience with the free jejunal autograft, 394

Aerodigestive tract
Preoperative outpatient nutritional support of patients with squamous cancer of the upper aerodigestive tract, 359
Surgical treatment of invasion of the upper aerodigestive tract by well-differentiated thyroid carcinoma, 363

AIDS
Response to radiotherapy of head and neck tumors in AIDS patients, 443

Air-block syndrome
Malignant pneumomediastinum: successful tube mediastinostomy in the neonate, 688

Alcohol
The amylase profile: a discriminant in biliary and pancreatic disease, 490

American Board of Surgery
What is a surgeon? (E), 563

Amputation
A decade of lower extremity venous trauma: patency and outcome, 608
Buerger's disease in the modern era, 123
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305
Is limb loss avoidable in civilian vascular injuries? 202
Prospective comparison of noninvasive techniques for amputation level selection, 179
Traumatic popliteal and trifurcation vascular injuries: determinants of functional limb salvage, 681

Amylase
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487
The amylase profile: a discriminant in biliary and pancreatic disease, 490

Anal cleft
Repeat pilonidal operations, 118

Anastomosis
Collagen metabolism in small intestinal anastomosis, 288
Effect of force on anastomotic suture line disruption after carotid arteriotomy, 309
Management of injuries to the suprarenal aorta, 613
Prevention of wound infection after elective colorectal resection, 482
Testimony has its merits! (E), 486

Anesthesia
Continuous epidural anesthesia and postoperative epidural narcotics in vascular surgery, 192
Thoracoscopy under regional anesthesia for the diagnosis and management of pleural disease, 274

Aneurysms
Diagnostic and surgical considerations in the treatment of thoracoabdominal and suprarenal aortic aneurysms, 233

Angiography
Thoracic outlet syndromes: update 1987, 568

Angioplasty
Human percutaneous laser angioplasty: patient selection criteria and early results, 666

Anomalies, congenital
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in

the infant and child with unilateral inguinal hernia, 628
Surgical problems in the fetus: a multidisciplinary approach, 685
Antibiotics
Appendicitis in children: a systematic approach for a low incidence of complications, 631
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Prevention of wound infection after elective colorectal resection, 482
Testimony has its merits! (E), 486
Antibodies, monoclonal
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62
Anus
Natural history of surgically treated mucosal melanoma, 54
AO plates
Mandibular reconstruction using AO plates, 384
Aorta
Adequacy of central hemodynamics versus restoration of circulation in the survival of patients with acute aortic thrombosis, 206
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663
Diagnostic and surgical considerations in the treatment of thoracoabdominal and suprarenal aortic aneurysms, 233
Management of injuries to the suprarenal aorta, 613
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230
Vascular complications of intraaortic balloon counterpulsation, 99
Aortorrhapy
Management of injuries to the suprarenal aorta, 613
Appendix
Appendicitis in children: a systematic approach for a low incidence of complications, 631
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643
Arteries
Application of thrombolytic therapy in vascular occlusive disease. A surgical view, 548
Buerger's disease in the modern era, 123
Cranial nerve injuries during carotid endarterectomy, 529
Delayed diagnosis of arterial injuries, 579
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663
Effect of force on anastomotic suture line disruption after carotid arteriotomy, 309
Evaluation of a new classification of cerebrovascular disease: CHAT, 104
Human percutaneous laser angioplasty: patient selection criteria and early results, 666
Iliocaval compression syndrome, 169
Management of injuries to the suprarenal aorta, 613
Natural history of asymptomatic carotid plaque. Five year follow-up study, 659
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198
Surgical management of subclavian artery injury, 88
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
Ten year experience with the negatively charged glutaraldehyde-tanned vascular graft in peripheral vascular surgery. Initial multicenter trail, 533
The critical hypogastric circulation, 671
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230
Traumatic popliteal and trifurcation vascular injuries: determinants of functional limb salvage, 681
Use of the short saphenous vein in situ for popliteal-to-distal artery bypass, 240
Arteriography
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Aspiration, fine-needle
Three year follow-up of benign fine-needle aspiration biopsies of the breast, 58
Association for Surgical Education
Medical education: a continuum in disarray (E), 255
Presidential address: of mentors and academic responsibility (E), 465
The Association for Surgical Education and the Journal: a new partnership (E), 254
Atherosclerosis
Atherosclerosis in the younger patient. Results of surgical management, 225
Human percutaneous laser angioplasty: patient selection criteria and early results, 666
Atresia, biliary
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Azathioprine
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487
Bacteria
Appendicitis in children: a systematic approach for a low incidence of complications, 631
Repeat pilonidal operations, 118
Bacterial abscess
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27
Balloon pump, intraaortic
Vascular complications of intraaortic balloon counterpulsation, 99
Bile duct
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Is resection appropriate for adenocarcinoma of the pancreas? A cost-benefit analysis, 651
Risk of biliary surgery in patients with hyperbilirubinemia, 111
The amylase profile: a discriminant in biliary and pancreatic disease, 490
Biliary tract
An improved double-lumen biliary catheter for cholangiography, 317
Coexistence of gallbladder disease and morbid obesity, 655
The amylase profile: a discriminant in biliary and pancreatic disease, 490
Bilirubin
Risk of biliary surgery in patients with hyperbilirubinemia, 111
Billroth, Theodore
In search of the first head and neck surgeon (E), 342
Biopsy
An improved system for surgical excision of needle-localized nonpalpable breast lesions, 476
Diagnostic and prognostic problems in early gastric cancer, 516
Diagnostic value of open lung biopsy in immunocompromised patients, 692
Final diagnosis by fine-needle aspiration biopsy for definitive operation in breast cancer, 470
Needle localization of mammographically detected lesions in perspective, 279
Role of needle localization of nonpalpable breast lesions, 593
Some questions concerning the routine use of aspiration cytologic study in the definitive diagnosis of breast lesions (E), 474
Three year follow-up of benign fine-needle aspiration biopsies of the breast, 58
Bladder
Technique for intraoperative localization of urinary leakage, 313
Blakemore, Arthur H.
Reminiscences and ruminations: vascular surgery then and now (E), 158
Blood flow
Adequacy of central hemodynamics versus restoration of circulation in the survival of patients with acute aortic thrombosis, 206
Anatomic and pathophysiologic studies of the human internal jugular valve, 220
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Popliteal-to-tibial in situ saphenous vein bypass for limb salvage in diabetic patients, 245
Prospective comparison of noninvasive techniques for amputation level selection, 179
The critical hypogastric circulation, 671
Use of ultrasonic venography in the evaluation of venous valve function, 189
Blood pressure
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696

Bones
Healing between cartilage and bone ends. An experimental study, 389
Mandibular reconstruction using AO plates, 384
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Rim mandibulectomy for cancer of the oral cavity, 423
Surgical correction of late sequelae from facial bone fractures, 149
Traumatic popliteal and trifurcation vascular injuries: determinants of functional limb salvage, 681

Books
Book reviews, 41, 219, 560

Bowel preparation
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478

Breast
An improved system for surgical excision of needle-localized nonpalpable breast lesions, 476
Final diagnosis by fine-needle aspiration biopsy for definitive operation in breast cancer, 470
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62
Needle localization of mammographically detected lesions in perspective, 279
Role of needle localization of nonpalpable breast lesions, 593
Screening mammography: a surgeon's strategy for dealing with abnormal mammographic findings, 589
Some questions concerning the routine use of aspiration cytologic study in the definitive diagnosis of breast lesions (E), 474
Three year follow-up of benign fine-needle aspiration biopsies of the breast, 58

Buccal mucosa
Squamous cell carcinoma of the buccal mucosa: analysis of prognostic factors, 411

Buerger's disease
Buerger's disease in the modern era, 123

Burns
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585
Increased survival after major thermal injury. A nine year review, 623
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399

Butlin, Henry T.
In search of the first head and neck surgeon (E), 342

Bypass
Atherosclerosis in the younger patient. Results of surgical management, 225
Evolution of the in situ bypass, 248
In situ saphenous vein bypass: 1962 to 1987, 2
Is resection appropriate for adenocarcinoma of the pancreas? A cost-benefit analysis, 651
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Popliteal-to-tibial in situ saphenous vein bypass for limb salvage in diabetic patients, 245
The critical hypogastric circulation, 671
Use of the short saphenous vein in situ for popliteal-to-distal artery bypass, 240

Calcium
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487

Calculi
Aggressive management of cholecystitis during pregnancy, 292
Coexistence of gallbladder disease and morbid obesity, 655
Short surgical stay: two hospital days for cholecystectomy, 510
The amylase profile: a discriminant in biliary and pancreatic disease, 490
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505

Cancer
Analysis of a mass colorectal cancer screening program for cost-effectiveness, 261
An improved system for surgical excision of needle-localized nonpalpable breast lesions, 476
Colorectal carcinoma in young adults, 264
Craniofacial resections for tumors involving the base of the skull, 352
Diagnostic and prognostic problems in early gastric cancer, 516
Diagnostic value of open lung biopsy in immunocompromised patients, 692
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368
En bloc resection of colon cancer adherent to other organs, 67
Final diagnosis by fine-needle aspiration biopsy for definitive operation in breast cancer, 470
Framework invasion by laryngeal carcinoma, 452
Healing between cartilage and bone ends. An experimental study, 389
Is resection appropriate for adenocarcinoma of the pancreas? A cost-benefit analysis, 651
Lung cancer in patients with head and neck cancer. Incidence and long-term survival, 434
Mandibular reconstruction using AO plates, 384
Metastatic patterns in squamous cell cancer of the head and neck, 439
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62
Needle localization of mammographically detected lesions in perspective, 279
Pharyngocutaneous fistulas in advanced cancer: closure with musculocutaneous or muscle flaps, 381
Polyamine metabolism in carcinoma of the oral cavity compared with adjacent and normal oral mucosa, 429
Potentially curable masses in the pancreas, 134
Preoperative outpatient nutritional support of patients with squamous cancer of the upper aerodigestive tract, 359
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Reconstruction of hypopharyngeal defects in cancer surgery: do we have a choice? 374
Repair of limited or segmental defects of the cervical esophagus with mucosa-lined flaps, 130
Response to radiotherapy of head and neck tumors in AIDS patients, 443
Rim mandibulectomy for cancer of the oral cavity, 423
Role of needle localization of nonpalpable breast lesions, 593
Screening mammography: a surgeon's strategy for dealing with abnormal mammographic findings, 589
Sexual function after resection for rectal cancer, 502
Some questions concerning the routine use of aspiration cytologic study in the definitive diagnosis of breast lesions (E), 474
Squamous cell carcinoma of the buccal mucosa: analysis of prognostic factors, 411
Surgical treatment of invasion of the upper aerodigestive tract by well-differentiated thyroid carcinoma, 363
Ten years experience with the free jejunal autograft, 394
Three year follow-up of benign fine-needle aspiration biopsies of the breast, 58
Total and near-total gastrectomy for gastric cancer in patients over 70 years of age, 269
Total glossectomy, 415
Transhiatal esophagectomy, 42
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407
Warthin's tumor: multicentricity and increasing incidence in women, 347

Carcinoids
Carcinoids associated with multiple endocrine neoplasia syndromes, 142

Carcinoma
Colorectal carcinoma in young adults, 264
Framework invasion by laryngeal carcinoma, 452
Lung cancer in patients with head and neck cancer. Incidence and long-term survival, 434
Mandibular reconstruction using AO plates, 384
Metastatic patterns in squamous cell cancer of the head and neck, 439
Polyamine metabolism in carcinoma of the oral cavity compared with adjacent and normal oral mucosa, 429
Preoperative outpatient nutritional support

of patients with squamous cancer of the upper aerodigestive tract, 359
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Squamous cell carcinoma of the buccal mucosa: analysis of prognostic factors, 411
Surgical treatment of invasion of the upper aerodigestive tract by well-differentiated thyroid carcinoma, 363
Total glossectomy, 415
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447

Carotid artery
Cranial nerve injuries during carotid endarterectomy, 529
Effect of force on anastomotic suture line disruption after carotid arteriotomy, 309
Natural history of asymptomatic carotid plaque. Five year follow-up study, 659
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230

Cartilage
Framework invasion by laryngeal carcinoma, 452
Healing between cartilage and bone ends. An experimental study, 389

Catheterization
An improved double-lumen biliary catheter for cholangiography, 317
Colonization and sepsis from triple-lumen catheters in critically ill patients, 597
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
Use of the Foley catheter in the repair of adult indirect inguinal hernias, 315
Vascular complications of intraaortic balloon counterpulsation, 99

Cefoxitin
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478

Cells, endothelial
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211

Cephalosporins
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526

Cerebral venous congestion
Anatomic and pathophysiologic studies of the human internal jugular valve, 220

Cerebrovascular disease
Evaluation of a new classification of cerebrovascular disease: CHAT, 104

Cerebrovascular insufficiency
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230

CHAT classification
Evaluation of a new classification of cerebrovascular disease: CHAT, 104

Cheek
Squamous cell carcinoma of the buccal mucosa: analysis of prognostic factors, 411

Chemotherapy
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Chest
Thoracic outlet syndromes: update 1987, 568

Children
Appendicitis in children: a systematic approach for a low incidence of complications, 631
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Cholecystectomy
Coexistence of gallbladder disease and morbid obesity, 655
Short surgical stay: two hospital days for cholecystectomy, 510
The amylase profile: a discriminant in biliary and pancreatic disease, 490
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505

Cholecystitis
Aggressive management of cholecystitis during pregnancy, 292
Coexistence of gallbladder disease and morbid obesity, 655
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505

Choledocholithiasis
The amylase profile: a discriminant in biliary and pancreatic disease, 490

Cholelithiasis
Aggressive management of cholecystitis during pregnancy, 292
Coexistence of gallbladder disease and morbid obesity, 655
Short surgical stay: two hospital days for cholecystectomy, 510
The amylase profile: a discriminant in biliary and pancreatic disease, 490

Cholesterolosis
Coexistence of gallbladder disease and morbid obesity, 655

Claudication, intermittent
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663

Cocaine
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526

Collagen
Collagen metabolism in small intestinal anastomosis, 288

Colon
Analysis of a mass colorectal cancer screening program for cost-effectiveness, 261
Colorectal carcinoma in young adults, 264
En bloc resection of colon cancer adherent to other organs, 67
Is nasogastric intubation necessary in colon operations? 640
Modified Paul-Mikulicz ileocolostomy, 648
Prevention of wound infection after elective colorectal resection, 482
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478
Testimony has its merits! (E), 486
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643

Computerized tomography
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Computers
Automatic extraction of intensity-intervention scores from a computerized surgical intensive care unit flowsheet, 72

Congenital abnormalities
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628
Surgical problems in the fetus: a multidisciplinary approach, 685

Counterpulsation, balloon
Vascular complications of intraaortic balloon counterpulsation, 99

Cranial nerve
Cranial nerve injuries during carotid endarterectomy, 529

Craniofacial surgery
Surgical correction of late sequelae from facial bone fractures, 149

Crile, George
In search of the first head and neck surgeon (E), 342

Cyclosporine
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487

DaCosta, John C.
The letters of William Stewart Halsted and John Chalmers DaCosta (E), 320

Deterling, Ralph A.
Reminiscences and ruminations: vascular surgery then and now (E), 158

Diabetes
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305
Popliteal-to-tibial in situ saphenous vein bypass for limb salvage in diabetic patients, 245
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198

Dialysis
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198

Doppler flowmeter
Anatomic and pathophysiologic studies of the human internal jugular valve, 220

Drains
Percutaneous endoscopic gastrostomy

and jejunostomy by a single pass of the endoscope, 541
Prevention of wound infection after elective colorectal resection, 482
Testimony has its merits! (E), 486
Duodenum
An improved double-lumen biliary catheter for cholangiography, 317
Injuries of the duodenum, 93
Dysmotility, gastric
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11
Ear
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447
Economics
Analysis of a mass colorectal cancer screening program for cost-effectiveness, 261
Is resection appropriate for adenocarcinoma of the pancreas? A cost-benefit analysis, 651
Physicians' investments (E), 464
Questions that remain about short hospital stay routines (E), 515
Short surgical stay: two hospital days for cholecystectomy, 510
Edema
A decade of lower extremity venous trauma: patency and outcome, 608
Editorials
Effect of vagotomy on pancreatic size and physiologic mechanism, 304
In search of the first head and neck surgeon, 342
Medical education: a continuum in disarray, 255
Physicians' investments, 464
Presidential address: of mentors and academic responsibility, 465
Questions that remain about short hospital stay routines, 515
Reminiscences and ruminations: vascular surgery then and now, 158
Some questions concerning the routine use of aspiration cytologic study in the definitive diagnosis of breast lesions, 474
Testimony has its merits! 486
The Association for Surgical Education and the Journal: a new partnership, 254
The crucial role of the practicing surgeon in securing permission for organ donation, 253
The letters of William Stewart Halsted and John Chalmers DaCosta, 320
What is a surgeon? 563
What is surgery? 463
Education
Effect of sleep deprivation on the performance of surgical residents, 520
Medical education: a continuum in disarray (E), 255
Presidential address: of mentors and academic responsibility (E), 465
The Association for Surgical Education and the Journal: a new partnership (E), 254
What is a surgeon? (E), 563
Effusion, pleural
Pleural fluid pH: diagnostic, therapeutic, and prognostic value, 333
Elderly patients
Prevention of wound infection after elective colorectal resection, 482
Testimony has its merits! (E), 486
Thoracoscopy under regional anesthesia for the diagnosis and management of pleural disease, 274
Total and near-total gastrectomy for gastric cancer in patients over 70 years of age, 269
Electrocautery
Proximal pancreatectomy: a comparison of electrocautery and contact and noncontact Nd:YAG laser techniques in the dog, 493
En bloc resection
En bloc resection of colon cancer adherent to other organs, 67
Endarterectomy
Cranial nerve injuries during carotid endarterectomy, 529
Natural history of asymptomatic carotid plaque. Five year follow-up study, 659
Endoscopy
Combined tracheostomy and percutaneous endoscopic gastrostomy, 271
Diagnosis of penetrating cervical esophageal injuries, 619
Diagnostic and prognostic problems in early gastric cancer, 516
Percutaneous endoscopic gastrostomy and jejunostomy by a single pass of the endoscope, 541
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505
Thoracoscopy under regional anesthesia for the diagnosis and management of pleural disease, 274
Endothelium
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
Esophagectomy
Transhiatal esophagectomy, 42
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407
Esophagus
Diagnosis of penetrating cervical esophageal injuries, 619
Repair of limited or segmental defects of the cervical esophagus with mucosa-lined flaps, 130
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11
Ten years experience with the free jejunal autograft, 394
Transhiatal esophagectomy, 42
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407
Estrogen receptors
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62
Ethics
Orchiectomy during herniorrhaphy: what should we tell the patient? 636
Presidential address: of mentors and academic responsibility (E), 465
Surgical informed consent: what it is and is not, 574
Extremities, lower
A decade of lower extremity venous trauma: patency and outcome, 608
Atherosclerosis in the younger patient. Results of surgical management, 225
Buerger's disease in the modern era, 123
Delayed diagnosis of arterial injuries, 579
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305
Iliocaval compression syndrome, 169
Is limb loss avoidable in civilian vascular injuries? 202
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Popliteal-to-tibial in situ saphenous vein bypass for limb salvage in diabetic patients, 245
Prospective comparison of noninvasive techniques for amputation level selection, 179
The critical hypogastric circulation, 671
Traumatic popliteal and trifurcation vascular injuries: determinants of functional limb salvage, 681
Use of the short saphenous vein in situ for popliteal-to-distal artery bypass, 240
Use of ultrasonic venography in the evaluation of venous valve function, 189
Extremities, upper
Is limb loss avoidable in civilian vascular injuries? 202
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198
Eyelids
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447
Facial fractures
Surgical correction of late sequelae from facial bone fractures, 149
Feet
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305
Fetus
Surgical problems in the fetus: a multidisciplinary approach, 685
Fibroblasts
Perigraft seroma: clinical, histologic, and serologic correlates, 173
Fistulas, pharyngocutaneous
Pharyngocutaneous fistulas in advanced cancer: closure with musculocutaneous or muscle flaps, 381
Flaps
Adaptive mechanisms of speech and swallowing after combined jaw and tongue reconstruction in long-term survivors, 419
Anterior rectus sheath repair for inguinal hernia, 499
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399
Pharyngocutaneous fistulas in advanced cancer: closure with musculocutaneous

or muscle flaps, 381
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Reconstruction of hypopharyngeal defects in cancer surgery: do we have a choice? 374
Repair of limited or segmental defects of the cervical esophagus with mucosa-lined flaps, 130
Ten years experience with the free jejunal autograft, 394
Total glossectomy, 415
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Foley catheter
Use of the Foley catheter in the repair of adult indirect inguinal hernias, 315

Fractures, bone
Surgical correction of late sequelae from facial bone fractures, 149

Fundoplication, gastroesophageal
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Fungal abscess
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Fusion
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700

Gallbladder
Aggressive management of cholecystitis during pregnancy, 292
Coexistence of gallbladder disease and morbid obesity, 655
Short surgical stay: two hospital days for cholecystectomy, 510
The amylase profile: a discriminant in biliary and pancreatic disease, 490
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505

Gangrene
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305

Gastrectomy
Total and near-total gastrectomy for gastric cancer in patients over 70 years of age, 269

Gastric emptying, delayed
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Gastroesophageal reflux syndrome
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Gastrostomy
Combined tracheostomy and percutaneous endoscopic gastrostomy, 271
Percutaneous endoscopic gastrostomy and jejunostomy by a single pass of the endoscope, 541

Glands
Carcinoids associated with multiple endocrine neoplasia syndromes, 142
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368
Surgical treatment of invasion of the upper aerodigestive tract by well-differentiated thyroid carcinoma, 363
Warthin's tumor: multicentricity and increasing incidence in women, 347

Glossectomy
Total glossectomy, 415

Goldstein test
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628

Grafts
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700
Management of injuries to the suprarenal aorta, 613
Mandibular reconstruction using AO plates, 384
Perigraft seroma: clinical, histologic, and seroiogic correlates, 173
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
Ten year experience with the negatively charged glutaraldehyde-tanned vascular graft in peripheral vascular surgery. Initial multicenter trail, 533
Ten years experience with the free jejunal autograft, 394
The critical hypogastric circulation, 671

Greenfield filter
Complications encountered with the use of the Greenfield filter, 163

Groin
Anterior rectus sheath repair for inguinal hernia, 499
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628
Orchiectomy during herniorrhaphy: what should we tell the patient? 636
Revisiting the recurrent groin hernia, 35
Use of the Foley catheter in the repair of adult indirect inguinal hernias, 315

Halsted, William S.
The letters of William Stewart Halsted and John Chalmers DaCosta (E), 320

Head and neck
Adaptive mechanisms of speech and swallowing after combined jaw and tongue reconstruction in long-term survivors, 419
Craniofacial resections for tumors involving the base of the skull, 352
Delayed diagnosis of arterial injuries, 579
Diagnosis of penetrating cervical esophageal injuries, 619
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368
Framework invasion by laryngeal carcinoma, 452
Healing between cartilage and bone ends. An experimental study, 389
In search of the first head and neck surgeon (E), 342
Lung cancer in patients with head and neck cancer. Incidence and long-term survival, 434
Mandibular reconstruction using AO plates, 384
Metastatic patterns in squamous cell cancer of the head and neck, 439
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399
Pharyngocutaneous fistulas in advanced cancer: closure with musculocutaneous or muscle flaps, 381
Polyamine metabolism in carcinoma of the oral cavity compared with adjacent and normal oral mucosa, 429
Preoperative outpatient nutritional support of patients with squamous cancer of the upper aerodigestive tract, 359
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Reconstruction of hypopharyngeal defects in cancer surgery: do we have a choice? 374
Response to radiotherapy of head and neck tumors in AIDS patients, 443
Rim mandibulectomy for cancer of the oral cavity, 423
Squamous cell carcinoma of the buccal mucosa: analysis of prognostic factors, 411
Surgical correction of late sequelae from facial bone fractures, 149
Surgical treatment of invasion of the upper aerodigestive tract by well-differentiated thyroid carcinoma, 363
Ten years experience with the free jejunal autograft, 394
Total glossectomy, 415
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Heart
Adequacy of central hemodynamics versus restoration of circulation in the survival of patients with acute aortic thrombosis, 206
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585

Hematoma
Management of injuries to the suprarenal aorta, 613

Hemodialysis
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198

Hemorrhage
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585
Management of injuries to the suprarenal aorta, 613

Heparin
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696

Hepatic failure
Fulminant hepatic failure: the role of liver transplantation as primary therapy, 137

Hepatoportoenterostomy
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19

Hernia
Anterior rectus sheath repair for inguinal

hernia, 499
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628
Orchiectomy during herniorrhaphy: what should we tell the patient? 636
Revisiting the recurrent groin hernia, 35
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643
Use of the Foley catheter in the repair of adult indirect inguinal hernias, 315

History of surgery
Evolution of the in situ bypass, 248
In search of the first head and neck surgeon (E), 342
Reminiscences and ruminations: vascular surgery then and now (E), 158
The letters of William Stewart Halsted and John Chalmers DaCosta (E), 320
Thoracic outlet syndromes: update 1987, 568
What is a surgeon? (E), 563

Hospital management
Analysis of a mass colorectal cancer screening program for cost-effectiveness, 261
Automatic extraction of intensity-intervention scores from a computerized surgical intensive care unit flowsheet, 72
Effect of sleep deprivation on the performance of surgical residents, 520
Medical education: a continuum in disarray (E), 255
Orchiectomy during herniorrhaphy: what should we tell the patient? 636
Questions that remain about short hospital stay routines (E), 515
Regional trauma system design: critical concepts, 79
Short surgical stay: two hospital days for cholecystectomy, 510
Surgical informed consent: what it is and is not, 574
Surgical problems in the fetus: a multidisciplinary approach, 685
The crucial role of the practicing surgeon in securing permission for organ donation (E), 253

Hufnagel, Charles H.
Reminiscences and ruminations: vascular surgery then and now (E), 158

Hydrocele
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628

Hyperamylasemia
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487

Hyperbilirubinemia
Risk of biliary surgery in patients with hyperbilirubinemia, 111

Hypercalcemia
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487

Hypertension
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696

Hypopharynx
Reconstruction of hypopharyngeal defects in cancer surgery: do we have a choice? 374
Ten years experience with the free jejunal autograft, 394
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Hypovolemia
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585

Ileocolostomy
Modified Paul-Mikulicz ileocolostomy, 648

Iliocaval compression syndrome
Iliocaval compression syndrome, 169

Imaging techniques
A decade of lower extremity venous trauma: patency and outcome, 608
An improved double-lumen biliary catheter for cholangiography, 317
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27
Delayed diagnosis of arterial injuries, 579
Diagnosis of penetrating cervical esophageal injuries, 619
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700
Iliocaval compression syndrome, 169
Natural history of asymptomatic carotid plaque. Five year follow-up study, 659
Needle localization of mammographically detected lesions in perspective, 279
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Role of needle localization of nonpalpable breast lesions, 593
Screening mammography: a surgeon's strategy for dealing with abnormal mammographic findings, 589
Surgical management of subclavian artery injury, 88
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230
Thoracic outlet syndromes: update 1987, 568
Use of the short saphenous vein in situ for popliteal-to-distal artery bypass, 240
Use of ultrasonic venography in the evaluation of venous valve function, 189

Immunodeficiency
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Immunosuppression
Diagnostic value of open lung biopsy in immunocompromised patients, 692

Impotence
Sexual function after resection for rectal cancer, 502

Infants
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628
Malignant pneumomediastinum: successful tube mediastinostomy in the neonate, 688
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Infection
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27
Diagnostic value of open lung biopsy in immunocompromised patients, 692
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Prevention of wound infection after elective colorectal resection, 482
Testimony has its merits! (E), 486

Intensive care unit
Automatic extraction of intensity-intervention scores from a computerized surgical intensive care unit flowsheet, 72

Intestines
Adhesive small bowel obstruction. A review of 321 cases in a Thai hospital, 283
An improved double-lumen biliary catheter for cholangiography, 317
Collagen metabolism in small intestinal anastomosis, 288
Modified Paul-Mikulicz ileocolostomy, 648
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478
Ten years experience with the free jejunal autograft, 394
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643

Intralipid
Technique for intraoperative localization of urinary leakage, 313

Iodine 131
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368

Ischemia
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
The critical hypogastric circulation, 671

Jaundice
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Risk of biliary surgery in patients with hyperbilirubinemia, 111

Jaw
Adaptive mechanisms of speech and swallowing after combined jaw and tongue reconstruction in long-term survivors, 419

Jejunostomy
Percutaneous endoscopic gastrostomy and jejunostomy by a single pass of the endoscope, 541

Jejunum
Percutaneous endoscopic gastrostomy and jejunostomy by a single pass of the endoscope, 541
Ten years experience with the free jejunal autograft, 394
Jugular vein
Complications encountered with the use of the Greenfield filter, 163
Kaposi's sarcoma
Response to radiotherapy of head and neck tumors in AIDS patients, 443
Kidneys
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Technique for intraoperative localization of urinary leakage, 313
Knots, suture
Mechanical performance of monofilament synthetic absorbable sutures, 544
The half-hitch knot: a rational alternative to the square knot, 538
Kocher, Theodore
In search of the first head and neck surgeon (E), 342
Laparotomy
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602
Larynx
Framework invasion by laryngeal carcinoma, 452
Total glossectomy, 415
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407
Laser surgery
Human percutaneous laser angioplasty: patient selection criteria and early results, 666
Proximal pancreatectomy: a comparison of electrocautery and contact and noncontact Nd:YAG laser techniques in the dog, 493
Leakage, urinary
Technique for intraoperative localization of urinary leakage, 313
Letters
Letters to the editor, 338, 451
Limb salvage
Atherosclerosis in the younger patient. Results of surgical management, 225
Is limb loss avoidable in civilian vascular injuries? 202
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Popliteal-to-tibial in situ saphenous vein bypass for limb salvage in diabetic patients, 245
Lips
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Liver
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19
Fulminant hepatic failure: the role of liver transplantation as primary therapy, 137
Lungs
Diagnostic value of open lung biopsy in immunocompromised patients, 692
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700
Lung cancer in patients with head and neck cancer. Incidence and long-term survival, 434
Pleural fluid pH: diagnostic, therapeutic, and prognostic value, 333
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696
Thoracoscopy under regional anesthesia for the diagnosis and management of pleural disease, 274
Lymphoma
Potentially curable masses in the pancreas, 134
Mammography
Needle localization of mammographically detected lesions in perspective, 279
Role of needle localization of nonpalpable breast lesions, 593
Screening mammography: a surgeon's strategy for dealing with abnormal mammographic findings, 589
Mandible
Healing between cartilage and bone ends. An experimental study, 389
Mandibular reconstruction using AO plates, 384
Rim mandibulectomy for cancer of the oral cavity, 423
Mannitol
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478
Martin, Hayes
In search of the first head and neck surgeon (E), 342
Mechanical ventilation
Anatomic and pathophysiologic studies of the human internal jugular valve, 220
Mediastinostomy
Malignant pneumomediastinum: successful tube mediastinostomy in the neonate, 688
Melanoma
Natural history of surgically treated mucosal melanoma, 54
Metabolism
Collagen metabolism in small intestinal anastomosis, 288
Methylphenidate
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Microscopy
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
Microsurgery
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399
Microvascular permeability
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
Morphine
Continuous epidural anesthesia and postoperative epidural narcotics in vascular surgery, 192
Mucosa
Natural history of surgically treated mucosal melanoma, 54
Multiorgan failure
Colonization and sepsis from triple-lumen catheters in critically ill patients, 597
Multiple endocrine neoplasia
Carcinoids associated with multiple endocrine neoplasia syndromes, 142
Muscle
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
Pharyngocutaneous fistulas in advanced cancer: closure with musculocutaneous or muscle flaps, 381
Narcotics
Continuous epidural anesthesia and postoperative epidural narcotics in vascular surgery, 192
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Nasogastric intubation
Is nasogastric intubation necessary in colon operations? 640
Nd:YAG laser
Proximal pancreatectomy: a comparison of electrocautery and contact and noncontact Nd:YAG laser techniques in the dog, 493
Necrosis
Gangrene of the lower limbs in diabetic patients: a malignant complication, 305
Incidence of necrotizing pancreatitis and factors related to mortality, 295
Nerves
Cranial nerve injuries during carotid endarterectomy, 529
Effect of vagotomy on pancreatic size and physiologic mechanism (E), 304
Pancreatic trophism after truncal vagotomy in rats, 300
Total glossectomy, 415
Traumatic popliteal and trifurcation vascular injuries: determinants of functional limb salvage, 681
Non-Hodgkin's lymphoma
Potentially curable masses in the pancreas, 134
Response to radiotherapy of head and neck tumors in AIDS patients, 443
No-reflow phenomenon
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211
Nose
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447
Nutrition
Combined tracheostomy and percutaneous endoscopic gastrostomy, 271

Effect of vagotomy on pancreatic size and physiologic mechanism (E), 304
Pancreatic trophism after truncal vagotomy in rats, 300
Percutaneous endoscopic gastrostomy and jejunostomy by a single pass of the endoscope, 541
Preoperative outpatient nutritional support of patients with squamous cancer of the upper aerodigestive tract, 359

Obesity
Coexistence of gallbladder disease and morbid obesity, 655

Obituaries
Pinkham, Roland D., 155
Stearns, Howard C., 154
Steelquist, John H., 154

Obstruction
Adhesive small bowel obstruction. A review of 321 cases in a Thai hospital, 283
Application of thrombolytic therapy in vascular occlusive disease. A surgical view, 548
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663
Human percutaneous laser angioplasty: patient selection criteria and early results, 666
Risk of biliary surgery in patients with hyperbilirubinemia, 111
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643

Oral cavity
Natural history of surgically treated mucosal melanoma, 54
Polyamine metabolism in carcinoma of the oral cavity compared with adjacent and normal oral mucosa, 429
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Rim mandibulectomy for cancer of the oral cavity, 423

Orchiectomy
Orchiectomy during herniorrhaphy: what should we tell the patient? 636

Organ donation
The crucial role of the practicing surgeon in securing permission for organ donation (E), 253

Pancreas
Effect of vagotomy on pancreatic size and physiologic mechanism (E), 304
Hypercalcemia associated with pancreatitis and hyperamylasemia in renal transplant recipients. Data from the Minnesota randomized trial of cyclosporine versus antilymphoblast azathioprine, 487
Incidence of necrotizing pancreatitis and factors related to mortality, 295
Is resection appropriate for adenocarcinoma of the pancreas? A cost-benefit analysis, 651
Pancreatic trophism after truncal vagotomy in rats, 300
Potentially curable masses in the pancreas, 134
Proximal pancreatectomy: a comparison of electrocautery and contact and noncontact Nd:YAG laser techniques in the dog, 493
The amylase profile: a discriminant in biliary and pancreatic disease, 490

Paraplegia
Diagnostic and surgical considerations in the treatment of thoracoabdominal and suprarenal aortic aneurysms, 233

Parathyroid
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368

Pentoxifylline
Determinants of response to pentoxifylline therapy in patients with intermittent claudication, 663

Perfusion
Microvascular transport and endothelial cell alterations preceding skeletal muscle damage in ischemia and reperfusion injury, 211

Perigraft seroma
Perigraft seroma: clinical, histologic, and serologic correlates, 173

Peritoneum
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602

pH, pleural fluid
Pleural fluid pH: diagnostic, therapeutic, and prognostic value, 333

Pharynx
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Reconstruction of hypopharyngeal defects in cancer surgery: do we have a choice? 374
Ten years experience with the free jejunal autograft, 394

Physicians' investments
Physicians' investments (E), 464

Pilonidal procedures
Repeat pilonidal operations, 118

Pinkham, Roland D.
Obituaries, 154

Pinna
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447

Piperacillin
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478

Plaque
Natural history of asymptomatic carotid plaque. Five year follow-up study, 659

Pleura
Pleural fluid pH: diagnostic, therapeutic, and prognostic value, 333
Thoracoscopy under regional anesthesia for the diagnosis and management of pleural disease, 274

Pneumomediastinum
Malignant pneumomediastinum: successful tube mediastinostomy in the neonate, 688

Pneumoperitoneum, diagnostic
Intraoperative diagnostic pneumoperitoneum (Goldstein test) in the infant and child with unilateral inguinal hernia, 628

Polyamine metabolism
Polyamine metabolism in carcinoma of the oral cavity compared with adjacent and normal oral mucosa, 429

Polydiaxonone
Mechanical performance of monofilament synthetic absorbable sutures, 544

Polyglycolic acid
Mechanical performance of monofilament synthetic absorbable sutures, 544

Polypropropylene
Effect of force on anastomotic suture line disruption after carotid arteriotomy, 309

Pregnancy
Aggressive management of cholecystitis during pregnancy, 292
Surgical problems in the fetus: a multidisciplinary approach, 685

Prenatal diagnosis
Surgical problems in the fetus: a multidisciplinary approach, 685

Progesterone receptors
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62

Prostaglandin synthesis
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696

Prosthesis, duckbill
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Protamine
Pulmonary hypertensive effect of heparin and protamine interaction: evidence for thromboxane B_2 release from the lung, 696

Pseudoaneurysm
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676

Pulmonary infiltrates
Diagnostic value of open lung biopsy in immunocompromised patients, 692

Pyloroplasty
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Radiotherapy
Effect of decicurie doses of radioactive iodine 131 on parathyroid function, 368
Response to radiotherapy of head and neck tumors in AIDS patients, 443
Treatment results and patterns of failure in 646 patients with carcinoma of the eyelids, pinna, and nose, 447

Reconstruction
Adaptive mechanisms of speech and swallowing after combined jaw and tongue reconstruction in long-term survivors, 419
Effect of force on anastomotic suture line disruption after carotid arteriotomy, 309
Mandibular reconstruction using AO plates, 384
Microsurgery for macrodefects: microvascular free-tissue transfer for massive defects of the head and neck, 399
Outflow resistance measurement during infrainguinal arterial reconstructions: a reliable predictor of limb salvage, 185
Perigraft seroma: clinical, histologic, and serologic correlates, 173
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459
Repair of limited or segmental defects of the cervical esophagus with mucosa-

lined flaps, 130
Surgical correction of late sequelae from facial bone fractures, 149
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
Ten years experience with the free jejunal autograft, 394
The critical hypogastric circulation, 671
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Rectum
Analysis of a mass colorectal cancer screening program for cost-effectiveness, 261
Colorectal carcinoma in young adults, 264
En bloc resection of colon cancer adherent to other organs, 67
Prevention of wound infection after elective colorectal resection, 482
Sexual function after resection for rectal cancer, 502
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478
Testimony has its merits! (E), 486
The incidence and risk of early postoperative small bowel obstruction. A cohort study, 643

Reflux, gastroesophageal
Surgical treatment of the gastroesophageal reflux syndrome in infants and children, 11

Resident training
Effect of sleep deprivation on the performance of surgical residents, 520

Respiratory failure
Combined tracheostomy and percutaneous endoscopic gastrostomy, 271

Resuscitation
Appendicitis in children: a systematic approach for a low incidence of complications, 631
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585

Reviews
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27
Continuous epidural anesthesia and postoperative epidural narcotics in vascular surgery, 192
Evolution of the in situ bypass, 248
In situ saphenous vein bypass: 1962 to 1987, 2
Pleural fluid pH: diagnostic, therapeutic, and prognostic value, 333
Thoracic outlet syndromes: update 1987, 568

Roentgenography
A decade of lower extremity venous trauma: patency and outcome, 608
An improved double-lumen biliary catheter for cholangiography, 317
Complications encountered with the use of the Greenfield filter, 163
Delayed diagnosis of arterial injuries, 579
Diagnosis of penetrating cervical esophageal injuries, 619
Iliocaval compression syndrome, 169
Prognosis of renal cell carcinoma with vena caval and renal vein involvement. An update, 49
Role of needle localization of nonpalpable breast lesions, 593
Screening mammography: a surgeon's strategy for dealing with abnormal mammographic findings, 589
Surgical management of subclavian artery injury, 88
Surgical therapy of femoral artery pseudoaneurysm after angiography, 676
The value of aortic arch study in the evaluation of cerebrovascular insufficiency, 230
Use of ultrasonic venography in the evaluation of venous valve function, 189

Saline solution, hypertonic
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585

Salivary glands
Warthin's tumor: multicentricity and increasing incidence in women, 347

Sawaguchi procedure
Encouraging results with a modified Sawaguchi hepatoportoenterostomy for biliary atresia, 19

Scoliosis
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700

Secobarbital
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526

Sepsis
Colonization and sepsis from triple-lumen catheters in critically ill patients, 597
Increased survival after major thermal injury. A nine year review, 623
Peritoneal dialysis catheter sepsis: a medical and surgical dilemma, 602
Single-dose piperacillin versus cefoxitin combined with 10 percent mannitol bowel preparation as prophylaxis in elective colorectal operations, 478

Seroma
Perigraft seroma: clinical, histologic, and serologic correlates, 173

Sexual function
Sexual function after resection for rectal cancer, 502

Shock
Increased survival after major thermal injury. A nine year review, 623
Management of injuries to the suprarenal aorta, 613

Shunts
Beneficial effects of a hypertonic solution for resuscitation in the presence of acute hemorrhage, 585
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198

Skin
Management of soft-tissue infections of the upper extremity in parenteral drug abusers, 526
Reconstruction in the head and neck regions with free radial forearm flaps and split-rib bone grafts, 459

Skull
Craniofacial resections for tumors involving the base of the skull, 352

Sleep deprivation
Effect of sleep deprivation on the performance of surgical residents, 520

Smoking
Atherosclerosis in the younger patient. Results of surgical management, 225
Buerger's disease in the modern era, 123
Warthin's tumor: multicentricity and increasing incidence in women, 347

Speech
Adaptive mechanisms of speech and swallowing after combined jaw and tongue reconstruction in long-term survivors, 419
Voice restoration after total laryngopharyngectomy and cervical esophagectomy using the duckbill prosthesis, 407

Sphincterotomy
The long-term fate of the gallbladder after endoscopic sphincterotomy. Complete follow-up study of 122 patients, 505

Spine
Exposure of the anterior spine. Technique, complications, and results in 85 patients, 700
Iliocaval compression syndrome, 169

Spleen
Changing clinical spectrum of splenic abscess. A multicenter study and review of the literature, 27

Staining techniques
Monoclonal antibody staining and impact of surgical technique on the identification and quantitation of steriod receptors in human breast cancer, 62

Stapling
Modified Paul-Mikulicz ileocolostomy, 648

Steal syndrome
Recognition and treatment of vascular steal secondary to hemodialysis prostheses, 198

Stearns, Howard C.
